

PRIVATE INDIVIDUALS FEE CHART INVESTMENT ADVICE SERVICES

An all-in fee applies to our Investment Advice services and the corresponding additional services. This fee is a percentage of your assets and is charged in retrospect at the end of each quarter. The fee is calculated over the average assets in your account on the final calendar day of each month in the relevant quarter.

The percentage used to calculate the all-in fee over a calendar quarter depends on the total average assets you and your family hold in the preceding calendar quarter for which we conduct asset management or provide investment advice. We call these the (combined) family assets. By family we mean your family in the descending and ascending lines (parents, grandparents, children, grandchildren and great-grandchildren) as well as spouses and cohabiting partners. The assets of companies of which you or your family owns more than 25% of the shares are included in the family assets.

The total average family assets are calculated as the average of the assets held on the final calendar day of each month in the relevant quarter.

Changes to the amount of combined family assets mean that your fee may come under a different category in the table below at the start of a new quarter. Your all-in fee will consequently change.

All-in fee (% per year)		
(Family) assets	Investment Advice	
€ 10 million or higher	0.64%	incl. Shoe Box and Private Plan
€ 5 million to € 10 million	0.91%	incl. Private Plan
€ 3 million to € 5 million	1.07%	incl. Private Plan
€ 1 million to € 3 million	1.34%	incl. Private Plan
€ 350,000 to € 1 million	1.55%	for each risk profile for Asset Management, Private Plan not included

Above we list all the services included in the all-in fee and those services for which an additional fee is charged.

The published all-in fees are excluding VAT. In the case of Investment Advice you pay 21% VAT over 55% of the fee; 45% of the fee is exempt from VAT.

Unless otherwise stated, the following services are not included in the all-in fee and are therefore subject to additional fees.

- Shoe box service: please contact your Client Advisor for information about the options and rates.
- Administration & Executor support contact your Client Advisor for information about the options and rates.
- We do not charge a fee over the liquid assets that do not form part of the assets that we manage on your behalf or over which we provide investment advice.
- We offer a tax reclaim service for a number of countries. Whether it is indeed possible to reclaim tax depends on a variety of factors. More information on reclaiming withholding tax and the countries for which this service is available can be found under legal information on our website.
- Incoming and outgoing payments in foreign currencies are processed in euros as standard, unless you have opted for a different currency profile. This applies to both payments and to the buying and selling of securities such as equities, bonds and investment funds.
- Currency exchange (buying and selling of foreign currency) is conducted based on the market price at that moment. You pay a fee of 0.5% of the transaction amount per transaction.
- Any fees charged by third parties, such as fees charged by investment institutions for buying and selling participation rights in these investment institutions, are not included in the all-in fee and we will therefore charge these separately.
- Taxes and levies are not included in the all-in fee. Examples of these are Stamp Duty and Financial Transaction Tax.
